## Who is this course for?

For ultimate beginners in robotic surgery.

## What will I learn?

A basic technical skills curriculum, developed by the proficiency-based progression methodology. You will get trained in an objective, transparent & evidence-based way, resulting in a shorter learning curve.

## Who will I learn from?

**Prof. Dr. Alexandre Mottrie**  
AZORG Hospital Aalst, BE  
Off-site course director

**Orsi Robotic Experts**  
PBP-certified trainers

## Included in your course

- Pre-course e-learning
- Course materials
- Use of procedure-specific training models
- Certificate of proficiency in the lab
- Certificate of attendance
- CME credits
- Access to the Orsi Academy network
- Lunch and coffee breaks

## Training models

### Chicken model

Realistic tissue handling for safe, repeatable practice of core robotic skills.

## Timeline

## DAY 1

### **08:30 Hands-on training on chicken model**

- Basic device training on a da Vinci platform
- Suturing & knotting practice
- Dissection practice
- Dissection and coagulation practice

### **13:00 Lunch at the Orsi restaurant**

### **14:00 Hands-on training on chicken model**

- Suturing, knotting, dissection and coagulation practice
- Proficiency demonstration on ongoing bases
- Video-recording of proficiency assessment

### **17:00 End of the day**

## DAY 2

### **08:30 Hands-on training on chicken model**

- Suturing & knotting practice
- Dissection practice
- Dissection & coagulation practice

### **13:00 Lunch at the Orsi restaurant**

### **14:00 Hands-on training on chicken model**

- Suturing, knotting, dissection and coagulation practice
- Proficiency demonstration on ongoing bases
- Video-recording of proficiency assessment

### **17:00 End of the day**

# PBP CERTIFIED COURSE

At Orsi Academy, we help you improve surgical outcomes through advanced training and education. Our Proficiency-Based Progression methodology gives you a clear, structured and objective pathway to truly mastering surgical skills. Step by step, you'll grow toward the highest level of expertise.

**Scientifically  
proven**

**Transparent &  
fair assessment**

**Shorter  
learning curve**

**Safer surgery  
for better  
patient outcomes**
